Villages Golf Cart Man

The All American Series

All American Model: X2U-H1 EÜ^æã * Áru&k

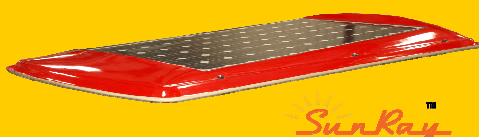

The Golf Cart Man & affiliates have engineered a unique electric low speed vehicle to meet market demand for high-quality, American made products...

- Rustproof all aluminum chassis
- Up to a foot more leg room than a standard Club Car
- American engineered; American made
- More affordable than a 2010 Club Car or EZ-Go
- Compatible with Eco Trans Alliance's (ETA) state-of-the-art Solar Top Conversion Kit Systems
- Compatible with Eco Trans Alliance's Rapid Zip Chargers
- Efficient, light weight electric vehicle for longer driving distances
- Models from 2-8 passengers
- Custom designed utility vehicles available
- Federal Tax Credits available; state tax credits may also apply

Add a SunRay™ Solar Top for additional benefits such as:

- Up to 5-10 miles extra driving distance per day
- Zero carbon footprint when operating on solar
- Energy savings; Battery life extension
- 10 year solar warranty; 25 year available
