The 2012 Four-Person EVE is a great Low Speed Vehicle (LSV), equipped with the safety features required for use on public roads with posted speed limits of 35 mph or less. Every vehicle comes with a highly efficient AC motor drive system for extra range due to lower friction. Other standard features include your choice of five standard body colors and five upgraded colors, our mechanical rear disc brakes for fast reliable braking, fill the batteries in seconds with our single point watering system to make (wet batteries only), charge your vehicle anywhere with our on board high frequency battery charger, feel the sporty suspension with our unique front gas shock suspension and enjoy the experience of made in America quality.

Personalize your car with an upgraded tire and wheel package, fabric seat with embroidered logo, carbon fiber or burl wood trim packages give a sporty or elegant flare to your ride. If you have longer daily commutes, get the extended range you need with more battery capacity or even maintenance free batteries. Our AC motor tested to over fifty mile range when paired with our longest range AGM maintenance free battery pack.

EVE is the right choice for customers who want style and elegance in a car at an affordable price. Visit www.evelsv.com for more info, pictures and ideas.
